Safes

- Independently certified Eurograde safes from grade 0 to 5
- VdS tested and ECB.S certified
- Insurance rated cash storage for up to £100,000 cash and £1,000,000 valuables
- Various size options with models offering up to 588 litres of storage space
- Independently fire rated safes rated for one hour fire protection and meeting strict European EN 15659

Burg-Wächter safes are installed to protect the assets across multiple sectors including education, public, commercial and retail.

Our fully accredited and independently tested Eurograde safes offer protection for valuables up to one million pounds. Unique and independently certified, Burg-Wächter offer the only approved and award winning biometric locking solution on the market.

Access Control

Burg-Wächter SECUentry smart locking system brings all the features of a traditional card based solution and places them into a cylinder. Utilising Bluetooth 4.0 and NFC technologies, a remote management application (iOS & Android compatible) allows for easy programming and entry via your smartphone.

- Access control solutions for both residential and commercial properties
- Models offering multiple methods of access including pin code, finger print, transponder and smartphone via Bluetooth
- Hotel solutions with fully automated guest kiosk service including check-in and check-out and taking payment
- Companion software available for administrating up to 250 users with full audit and user control
- Wireless connections are secured with AES encryption

The scalable system is suitable for residential and commercial applications. The SECUentry Hotel allows remote authorisation for room access through our unique code generating system. The innovative hotel system is compatible with a kiosk entry system that allows for fully automated room booking and payment. The system assigns a room to the guest and supplies an access code which expires automatically at check-out. SECUentry has allowed hotels the flexibility to reduce their overheads and utilise technology to enhance their customer experience.

Padlocks

Our range of padlocks are trusted to protect national infrastructures including rail and harsh marine environments across the UK and Europe. Burg-Wächter are the only manufacturer still producing high quality padlocks in Germany. German precision engineering has allowed us to consistently produce products that exceed the toughest standards.
